INTRODUCING

THE NEW COMPACT ONE+ BATTERY RANGE

IntelliCell™ battery technology

Uniquely manages its own power to deliver optimum performance and runtime for any ONE+™ tool and application.

* Up to 3 x runtime is based on example of R18CS cutting 18mm ply comparing a 9.0Ah battery pack (RB18L90) to a 5.0Ah battery pack (RB18L50)

BRUSHLESS™ INTELLIGENT PERFORMANCE

Intelligent Performance

A microprocessor constantly monitors and regulates the motor to maximise runtime.

Power

A friction-less BRUSHLESS™ motor spins at up to 25,000rpm to deliver more powerful tools.

Fuel Gauge

The simplest way to monitor your battery life and manage your workload.

Protection Electronics

The electronics shut down the tool if there is too much strain on the battery or if it gets too hot, protecting both tool and battery from damage.

High Power Cells

High performance cells minimise heat generation and provide the power for more demanding applications.

18V ONE+™ HP

High Performance. Advanced Technology.™

ONE+ HP is the High Performance series of Ryobi's 18V tools, featuring our most advanced brushless technology for maximum performance.

The High Performance tool series has been designed with Ryobi patented technologies. Optimised energy-dense motors spin faster providing more power, advanced electronic controllers maximise performance, whilst the Lithium+ battery technology delivers outstanding runtime.
